WYE RIVER CUSTOM HOME

The three-level, 7,500-square-foot, four-bedroom contemporary home has notable custom features. The overall design features a barrel-vaulted ceiling. Elliptical windows on the front and rear of the home offer clear views of the waterfront. There are unusual lift-and-slide doors; glass panel walls can disappear when recessed. The homeowners can create at will separate living spaces or open the space up completely for entertaining and enjoyment of bay breezes.
